---	---

What: The Walk4Hearing is a nationally coordinated effort that has two clear goals:

- To increase awareness about the causes and consequences of hearing loss.
- To raise funds to provide information and support for people with hearing loss.

Why: It is estimated that almost 31 million Americans are affected by hearing loss. The vast majority of them lack much needed information and support as they struggle to fit into a hearing world. The Hearing Loss Association of America is dedicated to providing that information and support – and to enable people with hearing loss to live full and productive lives.

Your participation in the Walk4Hearing will help us reach these goals. Thank You for your support!

Those willing to sponsor, be a team captain or walk on a team should contact the walk site at the above address or email

Help "...make hearing loss an issue of national concern."
